Summer

Flour Lake is noted for some great fishing and trophy smallmouth bass.

Fish for Smallmouth Bass, Walleye, Lake Trout and Northern.

Come and enjoy this special time, when the trees and flowers come alive, the lakes share their glimmering waters and the haunting call of the loon fills the air.

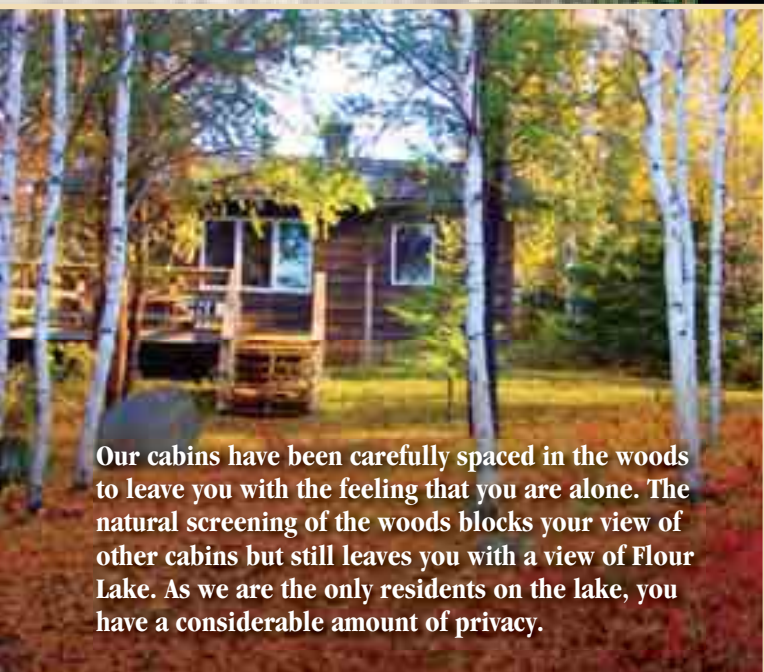

Golden Eagle Lodge offers modern, housekeeping cabins to ensure comfort during your stay on the Gunflint Trail. Relax in our cozy cabins after a day spent enjoying the wonders of the great North Woods. Hiking, fishing, canoeing, bird-watching, star gazing, berry picking and swimming on our sand beach are just some of the activities available to you. The Nature Center offers a hands-on approach to the study of nature and will give your family many hours of fun and enjoyment as you learn about the North Woods.

Come visit us. We know you'll fall in love with Golden Eagle Lodge, where memories grow and the beauty of nature draws you back year after year.

A number of beautiful day trips into the BWCA start right from Flour Lake.

Autumn

As summer blends into autumn and Nature brushes the leaves in vibrant colors, the wildlife ready themselves for winter. Squirrels scurry for food, Grouse parade through the woods, Moose begin their search for a mate and ducks linger as long as possible before they fly in search of open water. Canoe a lake in pristine solitude as you watch the reflections of autumn surround you. Hike to Honeymoon Bluff for a view that is breathtaking, then return to your cabin and an evening spent by the fire. Quiet . . . Spectacular . . . Solitude, you'll find it here.

Our cabins have been carefully spaced in the woods to leave you with the feeling that you are alone. The natural screening of the woods blocks your view of other cabins but still leaves you with a view of Flour Lake. As we are the only residents on the lake, you have a considerable amount of privacy.

After an exciting day outdoors, you can relax in the comfort of your own cabin. All cabins are fully furnished with kitchens and private bath.

Winter

Our Kassbohrer Pisten Bully sets quality-groomed trails in all conditions.

This is World-Class cross-country skiing at its best! Golden Eagle Lodge Nordic Ski Center offers over 70 km of groomed ski trails for the beginner to the advanced. An average snowfall of 100 inches per year allows for winter's silent sports from November to mid-April. Enjoy the romance of night skiing on our lit trail then relax in the private use sauna.

For the snowshoe enthusiast, try our marked trails or make your own. Winter is a great time to see animal tracks as well as an abundance of birds. The pristine beauty will awe you, the quiet solitude of nature will bring you back again and again.

Our trail system has been specifically built for cross-country skiing. All trails are tracked for traditional skiing along with a portion for skate skiing. Complete ski equipment and snowshoe rentals are available as well as a heated waxing room.
